

THE NATIONAL BIOECONOMY DAY

CHALLENGES AND OPPORTUNITIES FOR THE ESTABLISHMENT OF BIO-BASED VALUE CHAINS

23 MAY 2019

Area della Ricerca del Consiglio Nazionale delle Ricerche

Via A. Corti, 12

MILAN

The **Lombardy Green Chemistry Association**, the regional point of reference of the bioeconomy ecosystem, organizes the workshop as one of the main events to be held in Lombardy during the National Bioeconomy Day promoted by the Cluster SPRING and Assobiotec.

The event triggers the interregional cooperation and is part of the **Vanguard Initiative's "Bioeconomy Pilot"** which is co-lead by the Lombardy region and aims at enhancing the Smart Specialization Strategy of 25 European regions.

The workshop aims to raise public awareness and promote dialogue on bio-energy and bio-based products production across Europe, bringing together academics, researchers, stakeholders, policymakers and business representatives operating in the bio-based value chain.

The objective of the workshop is to **exchange ideas** on how to support the **interregional cooperation** on the **innovative use of non-food biomass**, share experience and discuss bottlenecks in the final step from technical maturity to industrial and market implementation.

VANGUARD INITIATIVE
New growth through smart specialisation

Consiglio Nazionale delle Ricerche

REGISTRATION.
Registration is open until 22 May 2019. [Please register here!](https://lgcabioeconomyday.eventbrite.it)

ROLE OF BIO-BASED VALUE CHAIN SUPPORTING THE TRANSITION TO A SUSTAINABLE AND CIRCULAR BIOECONOMY

Moderator: Maurizio Bettiga, Lombardy Green Chemistry Association, EviKrets Biobased Processes Consultants, Chalmers University of Technology

8.30 Registration opens and Welcome coffee

9.00 High level opening and welcome note from organiser and moderator

Sergio Riva – Director of Institute of Molecular Recognition in Chemistry, National Research Council

Piero Angelo Morandini, Researcher University of Milan, Member of National Committee for Biosafety, Biotechnology and Life Sciences (CNBBSV)

Vincenzina Cristofaro - Lombardy Region - DG Research, Innovation, University, Export and Internationalization

The energy of the future: technologies and public services

09:30 Gabriel Marin, Air Liquide, Italy - Boosting the biomethane value chain

10.00 Davide Ferraro, CAMBI - Cambi Contribution to Circular Economy

10.30 Davide Scaglione, Gruppo CAP – Zero-mile biomethane: a circular economy approach to sewage treatment

11.00 Matteo Lorenzo De Campo, Gruppo Maganetti – Sustainable Logistics: the LNG project

Bioeconomy bridge to the future: bioenergy and bio-based products

11.30 Valerio Paolini, Institute of Atmospheric Pollution Research, National Research Council

12.00 Ludo Diels, VITO, Flanders – Biobased aromatics, challenge, hurdles and opportunities

Economic, environmental and social impact of the bioeconomy

12.30 Claudio Soregaroli, Università Cattolica del Sacro Cuore – The BIOMONITOR project

13.00 Closing remarks

Supported by

FEDERAZIONE REGIONALE
ORDINI DOTTORI AGRONOMI
DOTTORI FORESTALI
DELLA LOMBARDIA

FEDERCHIMICA
ASSOBIOTEC
Associazione nazionale per lo sviluppo delle biotecnologie

ORDINE DEGLI INGEGNERI
DELLA PROVINCIA DI MILANO

"Evento in collaborazione con la Federazione Regionale dei dottori agronomi e dottori forestali della Lombardia. Ai fini della formazione professionale vengono riconosciuti 0,625 CFP ai sensi del regolamento CONAF n. 3/2013"

TAKE THE
INITIATIVE!

Applying environmental legislation.
