

5th World Congress on

Green Chemistry and Green Engineering

July 19-20, 2018 Melbourne, Australia

Theme: "The Sustainable Future of Earth with Green Chemistry and Engineering"

In Collaboration with

Lombardy Green Chemistry Association

Invitation

Conference Series welcomes you to attend the 5th World Congress on Green Chemistry and Green Engineering during July 19-20, 2018 in Melbourne, Australia in collaboration with Lombardy Green Chemistry Association, Italy. We invite all the Leading Universities, Green Chemistry companies, Green Engineering Companies, Sustainability Scientists, Green Chemistry Researchers, Green Engineering Professionals, students, business delegates and Young researchers across the globe for this grand event. Green Chemistry Congress 2018 will be an excellent opportunity to meet eminent personalities in the fields of Sustainability and learn about the latest technological advancements. This is going to be the World's international experts meeting on Green Chemistry and Engineering anticipating hundreds of attendees with speakers and delegates.

"Welcome to the best platform where you can prove & share your Green Chemistry and its Applications"

Regards,

Green Chemistry Congress 2018 Operating Committee

Invitation

Conference Highlights:

- Green Chemistry
- Green Engineering
- Green Catalytic Modulations
- Waste Management
- Green nanotechnology
- Bio resource Technology
- Green Innovative Trends
- Environmental Engineering
- Bio based Chemicals
- Green synthesis and Designing
- Green materials and Engineering
- Renewable and Sustainable energy
- Green solvents
- Green separations
- Green Processing and Solar Energy
- Green Analytical Methodologies
- Entrepreneurs Investment Meet

Organizing Committee Members

Ch. Sanjay
GITAM University, Hyderabad
India

Raj Das
RMIT University
Australia

Mika E.T. Sillanpaa
Lappeenranta University of
Technology, Finland

SO Oluwafemi
University of Johannesburg
South Africa

Hui Zhang
Shanghai Jiao Tong
University, China

Rafat Siddique
Thapar University, Patiala
India

Ana Sofia Figueroa
De La Salle University
Colombia

Jinxue Jiang
Washington State University
USA

M Moatamedi
University of Tromso
Norway

Mahmoud Allawy Mohsin
University of Sharjah
UAE

Tetsuya Suzuki
Keio University
Japan

Dequan Xiao
Center for Integrative Materials
Discovery, USA

Conference Venue: **Novotel Melbourne St Kilda, Melbourne, Australia**

About Melbourne:

Melbourne is Victoria's capital city and a vibrant hub of business, culture, sport, style, and dining. The whole population of Melbourne is about 4.5 million and its metropolitan area covers 9990.5 km². The Melbourne city population comprises people from all age groups and from varied cultures. The residents include young experts, international students and older couples hoping to appreciate everything the city offers. On a normal weekday around 909,000 individuals utilize the city, and every year Melbourne has over a million global guests. The city of Melbourne works with many local councils and the Victorian Government to guarantee that Melbourne is one of the most secure, healthiest and cleanest cities in the world. This makes Melbourne's as Australia's pre-famous center for arts and culture, education, eating and shopping. Melbourne occupants enjoy a mild climate as it is located at the apex of one of the world's biggest bay, Port Phillip Bay. English is the official language; however, more than 100 dialects are spoken by its residents.

Melbourne's tourist's spots are set on rolling terrains offering stunning landscapes for guests which include Great Ocean Road, Phillip Island and Penguins, St. Paul Cathedral Melbourne, The Melbourne Museum, Monuments and dedications, Queen Victoria Gardens and Fitzroy Gardens.
